Todos Application

[project3_link](#)

Technologies used : HTML, CSS, JS, Bootstrap

A robust task tracking system with CRUD capabilities, crafted to simplify task management.

- Designed with HTML, CSS and Bootstrap to ensure a user-friendly interface for managing tasks.
- Dynamic UI updates through JavaScript event listeners and DOM operations for seamless CRUD operations.
- Secure task persistence through local storage methods, ensuring that tasks are never lost.

Experience

Demeter Systems Private Limited (Technical Operations Associate)

Apr 2018 – Aug 2021

Bengaluru, Karnataka

Throughout my extensive professional experience, I have acquired a wealth of expertise in the efficient management of inventory for specialized SPM machines. My background in both management and purchasing teams has allowed me to develop a deep understanding of the intricate complexities involved in the procurement process. Leveraging my comprehensive knowledge and practical experience, I have consistently succeeded in ensuring that the necessary stocks and raw materials are readily available, thereby facilitating smooth and uninterrupted production. My meticulous attention to detail and proactive approach have earned me a reputation for promptly identifying and addressing potential issues before they can impact production deadlines.

Certificates

BEC Preliminary Certification

The Business English Tests are designed for individuals. They are designed to help professionals develop the English language skills to communicate confidently in international workplace.
